Note: These counts reflect pictures I've kept. I usually keep 1/4 of the pictures I take.

For reference, if I keep 300 pictures/month that means I took about 1200 pictures/month, which is one picture every 36 minutes.

Total Photos

\[ y = 3.4165x^2 - 8478x + 5E+06 \]

\[ R^2 = 0.9932 \]
